

In the name of Allah

Speech of **Mohammad Shuaib Brash Hammzoug** in:

"The First International Circassian Conference in Nurnberg 21-22 Sept. 2018"

My speech is titled: "Isn't it time for our Circassian nation to wake up from its deep sleep".

Oh our beautiful nationalism.

-You are of the holiness of our eyes.

-How thin and skinny you are today.

There are those who die, and those who are born.

But those who die from us, are far more than those who are born.

We are lost.....lost ,we are all lost. - It is a shame on us to be lost.

\*\*\*\*\*

If our nation is not bad...

Do not say that our language is bad and forget it.

For Goodness' sake, wake up.

He Who has slept a lot, and He who is recently lost are alike.

Do not make us the only people on earth not utilizing our minds

\*\*\*\*\*

In our such bad situation

We are overwhelmed and controlled by our mistakes.

And we lose good things in us.

We lose our national identity

We lose our language.

We lose our historical homeland.

And we become like those fishing in a dry vally.

We become like no other country or nation in the world.

Alas, alas , alas

I am not that writer who masters his pen as he pleases,, whenever he pleases.

I am not in a prestigious status that I fear for .

I contemplate and bemoan our situation,

when my pen noticed my status,

it dived into the ink,

Jumped to the paper,

and spilled these words you have just heard.

To those knowledgeable people who could see through the lines I read , i hope you excuse me and not to be offended by my words .

With such I end my speech .

Those who listened to my words can conceal it, and those who want to see the truth,may look through the mirror .

Thank you for listening.

God bless you my brethren and long live the Circassian nation free and proud.

Mohammad Shuaib Hamzouq,

General Secretary of Jordan Association of Caucasus Circassians Friends.
